

Facilities

Ovals

Norris Road State School has over 6.5 Ha of grounds. These grounds include:

- 2 ovals (one for PREP to year 3, and middle/upper years 4 - 7)
- 3 adventure playgrounds
- modern netball/basketball courts
- cricket nets and cricket pitch (middle/upper oval)
- rainforest area with artificial creek and windmill
- landscaped gardens throughout the school

Multi-Purpose Hall

The multi-purpose hall is used by the school community for:

- parades
- Physical Education classes
- Professional Development opportunities for staff
- Special functions such as the District Maths Tournament, ANZAC Day Ceremonies and concerts

The hall also has a kitchen area to help with catering for special events and also for the use of students and teachers during lessons.

Information and Communication Technologies (ICT's)

The school has made significant investments in ICT's. These investments have been made possible with significant contributions from the school Parents and Citizens Association, the Commonwealth Government through the Investing in Schools scheme, and from the school budget itself.

ICT facilities include a new computer lab for whole class lessons, and a mini-lab in the Resource Centre. Our aim is to provide every classroom within a teaching block, with access to a reliable and stable school network, appropriate ICT furniture and new computer hardware. In addition the school has purchased a number of digital cameras for use by students and teachers to help integrate ICT's into the curriculum.

In 2008, it is anticipated that the school network coverage will extend to all PREP facilities enabling access to the school network and internet.
